Genealogy Computer Society

Michael Brubaker from the Atlanta History Center will be our quest speaker next Saturday.

May 11, 2002

Volume 10, Issue 5

John Smith, our program sponsor for the May meeting has made arrangements for Michael to update us on current renovations. Many of you have probably not been aware of the genealogy resources available to you right here on West Paces Ferry. This is an opportunity to get your questions answered and find another research source.

I was unable to attend the April meeting, but all reports were that Tia did an outstanding job.

Thanks Tia

Bill Reace

Bill is doing great. He is home and trying to recover the strength he lost from inactivity. He is scheduled for surgery on Wednesday to remove the tangled arteries which caused so many problems.

Future Programs

| Date | Program Sponsor | Topic |
|--------------------|---|----------------------------|
| May 11, 2002 | John Smith | Georgia Historical Society |
| June 8, 2002 | we still need someone to volunteer for this meeting | |
| July 13, 2002 | Glen Engels | |
| August 10, 2002 | Glen Engels | |
| September 14, 2002 | | |
| October 12, 2002 | Marvin Tedjamulia | |
| November 9, 2002 | Bob Warnock | Computer Timelines |

This N That

Remember when Jane Splawn was collecting money for new census forms that she developed. Well; a lot of things happened after that.

Her computer broke down, her printer had to be replaced and then! She could not find the list anywhere.

Of course, she was Embarrassed. However that has happened to all of us. She sent me the following e-mail.

Don:

Would you please insert this notice in the upcoming info that you send out about the next meeting? Thank you in advance.

IMPORTANT NOTICE :
re census packets:

To those who have not received their census packet, please e-mail your name

and address to Jane at:
jsplawn@attglobal.net.
Thank you.

Barbara Dayhuff, a new member, asked when we were going to be talking about computers. Evidently the last few programs have been research-oriented.

She will be happy to know that Glen will be presenting computer knowledge at the July and August meetings.

I just got off the phone with Larry Maurer. He sounded good. He said he hoped to join us for the May meeting, but doubted if he could make it. They will be doing some tests the end of the month to see if he is a candidate for a new experimental procedure.

Talking about candidates, Linn Hendershot won the election for city Councilmen in Maryland. If you don't recognize Linn's name you are not an old-timer. Linn was the person that started this organization ten years ago.

I have been very pleased with our new approach of having members volunteer to sponsor the monthly meetings. The quality of programs has been outstanding.

Now it is time for another round of commitments. I will be passing around a form for you to pick a date for your program.
